

A new recruitment service
you can trust, offered by
qualified HR professionals

New recruitment service now available

We understand how important it is to the success of your organisation to have the best people in the right roles. Ditton HR has the experience and capability to work as recruitment advisors, a recruitment agency or both!

Having operated on the client side of the table as qualified HR professionals, we understand how important it is to work with trusted recruitment partners to help advise on and fill your vacancies with high quality people in a timely, professional and cost-efficient manner.

We have adopted cutting edge recruitment software which can identify the best talent quickly through job boards and social media to truly add value to our HR consultancy service. As chartered HR professionals, not sales people, you will notice that our approach to recruitment is a little different!

We can meet your permanent, temporary and contract requirements

Our services cover two main areas:

As Recruitment Advisors

- Developing a recruitment strategy
- Creating job descriptions
- Creating a recruitment advert
- Benchmarking salaries

As a Recruitment Agency

- Temporary & contract payroll
- Advertising on job boards
- Managing candidate applications
- Preparing a shortlist of candidates
- Arranging interviews
- Providing feedback to candidates
- Liaising with successful candidates

Our clients can use our recruitment advice and recruitment agency services in isolation of each other or together depending on your requirements.
